

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Dana Alexa Totir et al.  
Serial No. : 10/800,905  
Filed : March 15, 2004  
Title : NON-AQUEOUS ELECTROCHEMICAL CELLS

Art Unit : 1745  
Examiner : Raymond Alejandro  
Conf. No. : 1479

**Mail Stop Amendment**  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

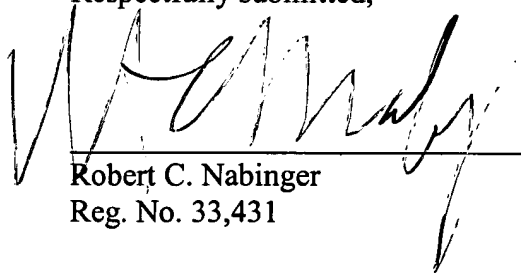

RESPONSE TO RESTRICTION REQUIREMENT

Applicants elect the Group I claims (1-46), without traverse.

Applicants also elect species 2 (first and second salts, and Al-surface) with traverse. The Examiner contends that "no claim appears to be generic for species 1-5." Applicants disagree. Claim 1 requires an electrolyte containing a specific salt and an aluminum surface. The phrase "electrolyte containing" used in introducing the salt is open ended. Focusing on the elected species 2, claim 1 is generic for the species and covers a battery including an electrolyte containing both the specific salt recited in claim 1 and a second salt. Applicants believe that at least claims 1-28 and 31-46 encompass the elected species.

Please apply any charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,

Robert C. Nabinger  
Reg. No. 33,431
